

EXCLUSIVE CAMPS&LODGES

Introduction

Exclusive Camps and Lodges, Uganda, was established in 2005. Each camp or lodge within the 'group', whilst having its own style, has been developed with the same ethos in mind... we concentrate on service and offer an exceptional safari experience to our discerning guests.

Our Platinum Camp offers complete exclusivity, and is available only to private parties of guests, with a maximum of eight tents. Sites are chosen for their location – pristine, wilderness areas with easy access to exceptional game viewing. The camp is eco-friendly, and when we depart we leave no trace of our existence.

We have designed this intimate camp in such a manner to offer complete comfort, in a relaxed environment and located in private areas away from other lodges.

We would like to invite you to stay with us, and enjoy our hospitality.

PLATINUM PRIVATE WILDERNESS TENTED CAMP

The Camp

'Platinum' Wilderness Camp has been designed to cater for guests who want complete privacy, particularly in areas of Uganda which may not offer suitable alternative accommodation. It is ideal for small groups of VIP guests, or families and for privately guided groups with special interests such as bird-watching. Each camp is exclusively erected for the duration of your group's stay and the location is based on your choice of area you wish to explore.

With only 8 tents, the camp staff are fully focused on good service, great food and our guests' ultimate comfort.

Each large airy tent which is, of course, insect-proofed has a well furnished bedroom area with double or twin beds, good solar lighting and en suite bathrooms. We provide eco-friendly flushing toilets and hot bush showers. Quality mattresses and bed linens are used to ensure a good night's rest after the day's activities.

A dining tent with lounge annex provides a central area for guests to gather for meals and to relax. Meals are freshly prepared by experienced safari chefs and include sundowner aperitifs and picnics when the itinerary requires.

A well stocked bar is also naturally included and specific preferences can be arranged with advance notice. We ensure the camp is fully outfitted with 4x4 safari vehicles, guides and also boats when required (in suitable sites) for guests' activities. Or, if they prefer, they may arrive with their own vehicles and we will simply provide 'camp services'. We are completely flexible and happy to accommodate any request.

Activities & Locations

Depending on the location of the camp, you will be advised as to what activities may be undertaken:

Murchison Falls – offers game viewing, forest walks, chimp tracking, river cruises, fishing, bird-watching.

Queen Elizabeth NP – offers game drives, boat cruise, chimp tracking and great bird-watching

Lake Mburo NP – game drives, boat cruise, walking safaris

Semliki NP – game drives, cultural interaction (pygmies), pristine wilderness area, bird-watching

At a Glance

- location in private exclusive sites anywhere in Uganda – generally inside National Parks
- eight luxury en suite tents
- bush showers & eco-friendly flush toilets
- central dining area under canvas with well-stocked library and bar
- game drives, bush walks, bird-watching, river cruises and community projects
- children and families are welcome
- private guided groups welcome
- camp available fully inclusive of all activities, guiding, vehicles and boating — or as 'accommodation only' if preferred

When to go

Uganda offers a temperate climate all year round, and depending on guests' interests we will assist in recommending where the Platinum Camp should be located, and what time of year is best. Generally, for those keen on photography, it is particularly rewarding in April and June/July, as the air is clear. Game and bird life is prolific all year round, but bird-watching is particularly good during the summer months (Oct–Nov) for migratory species as well as endemics.

Murchison Falls

Within the vast area of the north bank of the river Nile at Murchison Falls National Park, is one of the most popular destinations for us to erect 'Platinum Camp'. We utilise a site near the Nile river delta area shortly before it flows into Lake Albert. This gives guests a large range of activities. Early morning and late afternoon access to the prime game viewing areas of this park as well as direct access to boats for river activities is possible. Fishing for Nile Perch – one of the largest fresh water game fish in the world with records of over 100kg having been caught, we arrange all the necessary equipment (rods, reels and lures) if guests fancy trying a spot of fishing!

Guest Book

*Being private and exclusive was simply the best!
Peter and Jennifer Best*

The best mobile outfit I have experienced. Peter Jennings

*The camp, staff and location could not have been better.
We had a wonderful safari. Nigel and Stephanie*
